Mixer Pricing is based on Mixer and Control Panel mounted at designated locations. Junction boxes are to be mounted at the top of the tank where mixer power cord terminates. All electrical connections are to be made by customers. Additional pricing for all electrical connections are available based on distance from mounted control panel to the top of tank where junction box is mounted. Price includes Inspection and Sediment Removal with Mixer and Control Panel Mounting, Junction Box and Hardware. 1% Discount only applies to multiple tank contracts.

RM : Floor Mount applicable for water depths 45' or LESS

SM : Suspended Mount for water depths 45' or MORE

PM : Pipe Mount for directional applications.
