Limited Warranty

WARRANTY. Krausz warrants to Buyer that the products supplied to Buyer shall be free from defects in materials and workmanship, and shall substantially comply with the technical specifications for such product available on Krausz's website at www.krauszusa.com, as such specifications may be amended by Krausz from time to time (the "**Specifications**"). Such warranty shall remain in force for a period of two (2) Years from the actual date of shipment (the "**Warranty Period**"). If a product delivered by Krausz to Buyer is found defective in design, materials or workmanship, or is substantially incompliant with the applicable Specifications, Buyer's sole remedy shall be to return the defective product to Krausz and receive a repaired or replacement product (fixed, equivalent or new) in return or a credit in respect of the defective product, at the sole discretion of Krausz. Krausz will not be liable for labor costs for fitting and/or removal and/or re-install any products and/or transportation costs and/or loss of profit and/or any other related expenses, by the Buyer or any other party in respect of any warranty claim. Buyer shall be responsible for and shall perform all labor required in connection with this warranty described herein (excluding labor associated with the repair or replacement of products at Krausz's facilities), including labor required to inspect the products on Buyer's premises and to ship products to Krausz. Buyer shall be responsible for and pay all freight, insurance, import/export and other shipping-related charges to Krausz for all warranty repairs. Products returned to Krausz by Buyer must be shipped D.D.U. (Incoterms 2010) Krausz's facility or such other location as Krausz may designate. Krausz shall be responsible for and pay all freight, insurance, import/export and other shipping-related charges to return repaired products to Buyer, provided that if Krausz determines that any product returned for warranty repair is not defective, Buyer shall pay such charges. Before returning any product to Krausz, Buyer must obtain from Krausz a return material authorization number. If a defective product cannot be fixed and renewed, as determined by Krausz in its sole judgment based on appropriate evidence received from Buyer to Krausz's satisfaction, Krausz may, in its sole discretion, waive the return of the defective product.

The foregoing warranties are conditioned on satisfaction of each of the following: (i) all claims regarding defective products must be made in writing to Krausz (with appropriate documented evidence of the defect as Krausz reasonably requests) during the Warranty Period and shall stipulate the type of defect and the circumstances in which it was caused; (ii) Buyer has complied with the provisions of Section 1 above;, (iii) Buyer has received Krausz's prior written authorization to the return of the defective product, unless such return was waived by Krausz, in accordance with the preceding paragraph; (iv) the defective product was installed in accordance with the installation instructions and use restrictions or warnings for such product, as published on Krausz' website at www.krauszusa.com or the User Manual; (v) the products were utilized solely for their intended purpose and were maintained and used strictly in accordance with the User Manual; (vi) the products are installed in a ground were such ground's conditions and composition cannot damage the products; (vii) the defect was not caused by the use of the warranted products beyond the recommended limits published by Krausz or resulting from improper storage, transportation, handling, installation, operating or environmental conditions, wear, deterioration or any other misapplication, alteration, abuse, misuse or accident;, and (viii) the defect was not caused due to reasons beyond Krausz's control. To the extent Krausz provides technical information, advice or service concerning Krausz products, whether with or without charge, such technical assistance shall be advisory only, and Krausz shall have no liability for any adverse consequences resulting from any such technical assistance.

Multi Fittings Corporation
General Terms and Conditions of Sale

1. Scope

All sales are subject to these general terms and conditions ("**General T&Cs**"). In addition, certain products may be subject to product-specific terms and conditions ("**Specific T&Cs**") as posted on the Vendor's website at the time of sale. In the event of a conflict between the General T&Cs and the Specific T&Cs, the Specific T&Cs shall prevail. Purchaser's order is accepted subject to these General T&Cs, to the applicable Specific T&Cs and to any terms and conditions agreed to in writing by the Vendor and Purchaser. **It is expressly agreed that any terms and conditions contained in the Purchaser's order or otherwise stipulated will be deemed for the Purchaser's internal use only and will not be binding on the Vendor.**

2. Orders

Purchaser's orders are conditional upon satisfactory credit approval by the Vendor. The Vendor will only accept orders in excess of $100 before taxes or such greater amount as may be specified for certain products. Once confirmed by the Vendor, orders for custom-made or non-stocked products cannot be cancelled, modified or returned, except with the Vendor's written consent and upon terms which provide for indemnification of the Vendor for the costs and expenses incurred.

3. Shipments, Title to the Products and Risk of Loss

Any delivery schedules stipulated are approximate only and shipment will be made within reasonable proximity thereto. Under no circumstances will the Vendor be responsible for any damage whatsoever caused by delays in shipment, whether resulting from causes within or beyond the control of the Vendor.

All shipments are F.O.B. origin (Vendor's location) (American standard) or Ex Works (Vendor's location) (ICC Incoterms), as indicated on the invoice. Freight prepaid orders, when applicable, will be delivered by the carrier of the Vendor's selection, unless the use of other carriers is agreed to in writing with the Purchaser.

Risk of loss and title to the Products shall in any case pass to the Purchaser upon delivery of Products to the carrier at Vendor's shipping dock or upon the invoicing of the Products, whichever occurs first.

Purchaser must verify quantities and report discrepancies within 2 business days of receipt.

4. Prices

All prices quoted or published are F.O.B. origin (Vendor's location) or Ex Works (Vendor's location), and do not include any sales, use, excise or any other tax or levy imposed by any present or future law, regulation or other order, on any of the Products.

Published prices are subject to change without notice until orders are accepted by the issuance of an order confirmation, whereupon prices will remain firm for those shipments that take place within the 30-day period following the date of the order confirmation. For specific projects, contracts or quotations, the Vendor may agree in writing to protect prices for an extended period

of time. Each order may be shipped in whole or in part at the Vendor's discretion. Each shipment made will be immediately invoiced.

In order to be exempt of the applicable taxes, Purchaser must provide the Vendor with applicable tax exemption certificates or other documents.

5. Terms of Payment

Unless other terms of payment are agreed to in writing by the Vendor, payment is due upon delivery of the Products. If applicable, cash discounts, expressed as a percentage, are calculated on the net invoiced prices before any taxes, freight or other charges and can only be deducted from payment if the Vendor receives payment from Purchaser on or prior to the due date. Net 30 days means that payment is due within 30 days of the date of invoice and no cash discount is applicable. Overdue accounts shall bear interest at a rate of 18% per annum. The granting of credit by the Vendor is at all times based on its evaluation of the Purchaser's financial condition. If such financial condition does not justify continuance of shipment on credit, the Vendor may require full or partial payment in advance.

6. Return of Products

The Vendor may accept the return of Products, at its sole discretion, but is subject in all cases to the following: a) prior to returning any Products, the Purchaser must obtain a Return Material Authorization (RMA) number from the Vendor; b) Products must be returned freight prepaid, unless otherwise authorized by the Vendor; and c) Products must be received in good saleable condition and, if required, in full carton quantities and in their original packaging. A minimum return charge of 25% of the purchase price will be applied against any credit issued pursuant to the return of Products, except in the case of a Vendor shipping error. The Vendor may apply additional charges against the credit to cover remarketing costs or may refuse to issue any credit, but will advise the Purchaser accordingly.

Certain Products, such as pressure pipe and fittings, custom-made products or configurations, perishable products, obsolete products, large quantities or other specialty products cannot be returned.

In certain circumstances, the Vendor may direct that Products be destroyed for credit rather than returned.

7. Changes to Products

The Vendor reserves the right to make changes or improvements to its Products without assuming any further obligation.

8. Patent Rights

If any claim is made against the Purchaser based on the allegation that any of the Products sold by the Vendor constitute an infringement of any patent, the Purchaser shall notify the Vendor immediately. The Vendor shall have the right, at its own option and expenses, to take any actions to protect and defend its rights.

9. Force Majeure

The Vendor shall in no event be responsible or liable for any non-performance or delay in performance hereunder or any loss or damage of any kind or nature whatsoever, direct or indirect, suffered by the Purchaser, subsequent purchasers, end-users of the Products or any other person, as a result of any causes beyond the reasonable control of the Vendor including, without limitation, fires, floods, civil commotion, riots, wars, acts of God, embargos, acts of or acts authorized by any government or standard organizations, adoption of laws or regulations, strikes/slowdowns, lock-outs/walk-outs, labor shortages, accidents, breakdowns, power outages, delays in shipments, manufacture, transportation or delivery of goods or materials, shortages of materials or supplies, or price alterations.

10. Governing Law

This agreement and all rights and obligations hereunder shall be governed by the laws of Delaware and all actions commenced pursuant hereto shall be brought in a court of competent jurisdiction residing in Wilmington, Delaware. The parties agree to exclude this Agreement and the purchases made thereunder from the application of the United Nations' Convention on the Sale of Goods.

11. Non-waiver

No delay, failure, change or waiver by the Vendor to exercise any one or more of its rights under these terms and conditions of sale shall be construed or shall operate to be a waiver thereof or a continuing waiver of such terms and conditions.

12. Warranty and Limitation of Liability

12.1 The Vendor warrants that its Products are, at the time of their sale by Vendor, free from defects resulting from Vendor's faulty manufacturing.

12.2 THERE IS NO WARRANTY, CONDITION OR REPRESENTATION OF ANY NATURE WHATSOEVER, EXPRESSED OR IMPLIED, BY STATUTE OR OTHERWISE, EXCEPT AS HEREIN CONTAINED. ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS OF THE PRODUCTS FOR A SPECIAL PURPOSE AND ANY OTHER WARRANTY OF QUALITY ARE EXPRESSLY DISCLAIMED.

12.3 The Vendor will, at its entire discretion either refund or replace with a Product of the same type and size as the original Product, free of charge, including shipping charges at the original point of delivery, any Product which is found to breach this Limited Warranty.

12.4 THIS LIMITED WARRANTY IS VALID ONLY AND WILL ONLY APPLY IF ALL OF THE FOLLOWING CONDITIONS ARE MET:

12.4.1 The Product must have been used only in applications and under conditions (handling, installation, testing, use, water temperature, maintenance, repairs, etc.) that are strictly in compliance with these terms and conditions and the Vendor's technical manuals and installation instructions currently available from the Vendor at the time of installation.

12.4.2 The alleged defect must not be due to faulty installation, misalignment of products, vibration, ordinary wear and tear, corrosion, erosion, U.V. degradation, incompatible lubricants, pastes and thread sealants, unusual pressure surges or pulsation, water hammer, temperature shocking, or fouling.

12.4.3 The Product must have been installed in good and workmanlike manner consistent with the Vendor's technical manuals and installation instructions currently available from the Vendor at the time of installation, and with the state of the art industry standards and practices, and in conformance with all applicable laws and regulations.

12.4.4 The Product must have not been altered, damaged or modified after leaving the Vendor's premises, and must have been used in no more than one installation, show no evidence of disassembly or tampering, and have not been subjected to abnormal operating conditions, accident, abuse, misuse, unauthorized alteration, or repair.

12.4.5 The Product must not have been subject to acts of nature such as earthquakes, fire, flood, or lightning, or any other event of force majeure.

12.4.6 The Product must not have been subject to freezing inside any of its components.

12.4.7 If the Product is perishable, the Product must have been used prior to the expiration date as indicated on the Product.

12.4.8 The Claimant must notify the Vendor in writing within ten (10) days of when the alleged defect was discovered, or should have been discovered in the exercise of ordinary care, and the alleged defective Product must be promptly returned to the Vendor. Notice of an alleged defective Product under this Limited Warranty must be directed to your local IPEX Customer Service representative. Claimant must provide documentary evidence of failure, as well as the failed components themselves or representative samples of the Product that is alleged to have failed, and must agree to allow a meaningful and reasonable opportunity for Vendor to inspect the system in which the alleged defective Product was installed.

12.5 ANY LIABILITY IN RESPECT TO THE PRODUCTS IS STRICTLY LIMITED TO THEIR REFUND OR REPLACEMENT AS HEREINBEFORE SPECIFIED AND THERE SHALL NOT, IN ANY EVENT, BE ANY LIABILITY FOR ANY LABOUR CHARGES OR DAMAGES, INCLUDING WITHOUT LIMITATION DIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL OR PUNITIVE DAMAGES.

12.6 Without limiting the generality of the foregoing, any liability or responsibility is disclaimed:

12.6.1 for labor, materials, and/or other expenses required to replace a defective Product;

12.6.2 for any damage resulting from a defective Product;

12.6.3 for calculations, product drawings, or engineering design specifications;

12.6.4 regarding the accuracy of any plans, drawings, or specifications furnished to the purchaser as part of the sale of any of its products;

12.6.5 for loss or damage resulting from failure to abide by manufacturer's warnings, safety instructions, or other precautionary guidelines.

12.7 ANY CLAIM, WHETHER IN CONTRACT OR IN TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, WITH RESPECT TO OR ARISING OUT OF THE SALE, DELIVERY, INSTALLATION, REPAIR OR USE OF ANY PRODUCTS SOLD TO PURCHASER SHALL NOT IN ANY EVENT EXCEED THE PURCHASE PRICE OF THE PRODUCTS FOUND TO BE DEFECTIVE. It is the responsibility of the owner to obtain and pay for emergency repairs.

12.8 No statement, conduct, or description by the Vendor, any of its affiliates, their respective representatives, distributors or agents, in addition to or beyond this Limited Warranty, shall constitute a warranty. This Limited Warranty may only be modified in a writing signed by an officer of the Vendor.

13. IMPORTANT

Without limiting any other restriction in any of the Vendor's documentation, the Products must not be used in any way related to nuclear material or to a nuclear facility and must not be used or located in Iran, North Korea, Syria, Cuba or Sudan at any time.

For a Mechanical Joint Outlet, Make the Following Changes:

1.) Use the Stainless Steel Flanges List Price

2.) Change the 'SS' to 'MJ' (Example: 0404H304MJ0490)

Size	Part Number	Add to the 'SS' List Price:
4"	MJ	30.80

C.I.O.D. Gasketed Pressure Fittings (C-Series)

DR 18 (Class 150)
Fabricated in Sizes 10" – 36"

Applications

C.I.O.D. DR 18 PVC Gasketed Pressure fittings are thermoformed, glued and fiberglass reinforced. This eliminates the threat of rust or corrosion, providing better flow and cleaner water quality. C900 PVC pressure fittings can be used in both higher pressure water systems and low pressure sewer force main systems.

Westlake Pipe & Fittings offers a standard bell OD to facilitate joint restraint installation, while allowing all fittings to have fiberglass reinforced plastic where required. Bends of 45 degrees or less, are manufactured of one-piece construction where possible. This provides a lightweight, compact fitting, which can be easily handled in the field.

Westlake Pipe & Fittings C900 PVC fittings are designed to be used with engineered joint restraints or concrete thrust blocking. C900 PVC fittings are a tough alternative to cast iron fittings offering the added benefit of corrosion resistance.

Certification

Our Pressure C.I.O.D. Gasketed Sewer fittings conform to AWWA C900.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

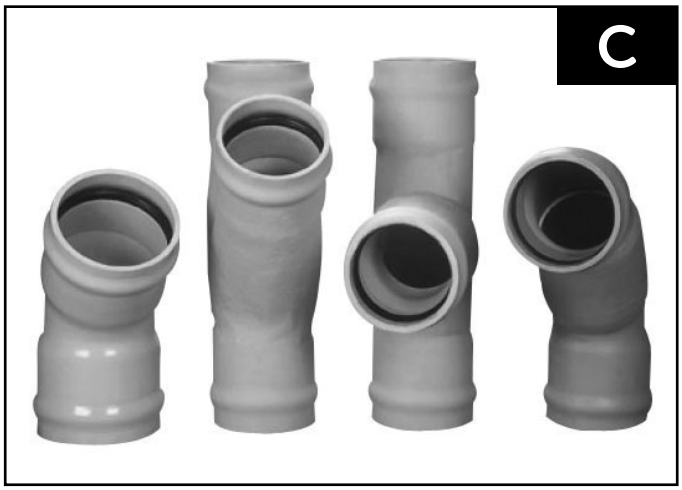
C.I.O.D. Gasketed Pressure Fittings (C-Series)

DR 25 (Class 100)
Fabricated in Sizes 10" – 36"



Applications

C.I.O.D. DR 25 PVC Gasketed Pressure fittings are thermoformed, glued and fiberglass reinforced. This eliminates the threat of rust or corrosion, providing better flow and cleaner water quality. C900 PVC pressure fittings can be used in both higher pressure water systems and low pressure sewer force main systems.

Westlake Pipe & Fittings offers a standard bell OD to facilitate joint restraint installation, while allowing all fittings to have fiberglass reinforced plastic where required. Bends of 45 degrees or less, are manufactured of one-piece construction where possible. This provides a lightweight, compact fitting, which can be easily handled in the field.

Westlake Pipe & Fittings C900 PVC fittings are designed to be used with engineered joint restraints or concrete thrust blocking. C900 PVC fittings are a tough alternative to cast iron fittings offering the added benefit of corrosion resistance.

Certification

Fittings conform to AWWA C900.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

Solvent Weld DWV Fittings (D-Series)

Includes: DWV-PVC Fittings Fabricated up to 24", Molded up to 12" and HVAC Products

Applications

The most complex installations require the most advanced fittings. Injection molded DWV fittings from Westlake Pipe & Fittings eliminate typical problems resulting from installing a DWV system with inconsistent, inaccurate, or non-certified fittings. When installing or specifying DWV you can count on a 45° bend being exactly that, a 45° bend. Literally from every angle, Westlake Pipe & Fittings understands the importance of accuracy and consistency on the job site and provides you with a perfect fit from roof to grade.

Our DWV fittings make installation of the system quicker, easier and less costly. Productivity gains are significant when our DWV fittings are specified and installed. Combine with our fabricated fittings to ensure a trouble-free installation.

Certification

Westlake Pipe & Fittings PVC Solvent Weld DWV Molded Fittings are third party tested and listed by NSF, UPC, and CSA to meet specifications defined in ASTM D2665, F1866, and CSA B181.2, where applicable. Fabricated fittings conform to ASTM F1866.

1 1/2" – 12" molded fittings are NSF certified to ASTM D2665.

Note: Please contact Westlake Pipe & Fittings Technical Services regarding certifications for specific fittings.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

DWV systems may be air tested at no more than 5 psi. To ensure safe testing, apply proper pressure regulation, relief devices and procedures.

Gasketed Sewer Fittings SDR 35 (G-Series)

Injection Molded in Sizes 4" – 12"
Fabricated in Sizes 15" – 36"

Gasketed SDR 35 fittings feature a one-piece integral bell and an extended pre-alignment entrance that aids in proper alignment of pipe and fittings. In addition to scientifically formulated resins, square pipe stops resist pipe push-through while extra heavy support is provided under the pipe stop at branch intersections for added strength. Where available, reducing branches on injection molded 8", 10", and 12" tees, wyes, and tee-wyes shall be minimum DR18 wall thickness in the reducing branch body and reducing branch hub area below the gasket race.

Applications

Gasketed Sewer fittings are intended for non-pressure drainage of sewage and surface water.

Certification

Westlake Pipe & Fittings Gasketed Sewer fittings are third party tested and listed by NSF, UPC and CSA to meet specifications defined in ASTM D3034, ASTM F1336 and CSA B182.2, where applicable.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

Heavy Wall Gasketed Sewer Fittings SDR 26/PS 115 (H-Series)

Injection Molded in Sizes 4" – 12"
Fabricated in Sizes 15" – 36"

With a 34.5% thicker wall than SDR 35 and high impact retention ring, Westlake Pipe & Fittings PVC Heavy Wall Gasketed Sewer fittings are manufactured to last. The distinctive green gasket is also heavy duty and engineered to make assembly fast and easy. Just push the pipe in until it hits the square stop for a solid, positive seal.

SDR 26/PS 115 Heavy Wall Gasketed Sewer fittings also feature distinctive green high impact gasket retention rings for easy identification in the field. The deep lead into the gasket reduces the possibility of gasket damage or rolling. In addition, the shock absorbing ring inhibits fittings from breaking under impact.

Applications

Heavy Wall Gasketed Sewer fittings can be used where extra heavy wall (SDR 26) is specified by your local jurisdiction. SDR 26/PS 115 fittings are intended for non-pressure drainage of sewage and surface water.

Certifications

Heavy Wall Gasketed Sewer fittings are third party tested and listed by NSF to meet specifications defined in ASTM D3034 and F1336 and CSA to meet specifications defined in CSA B182.2, where applicable.

4" - 12" SDR 26 molded, certified to CSA B182.2 (CSA) ASTM D3034/ F1336 (NSF).

15" SDR 26 fabricated, certified to CSA B182.2 (Intertek), manufactured as per ASTM D3034/F1136.

18" and over, PS 115 fabricated, manufactured as per ASTM F1336.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

C.I.O.D. Gasketed Non-Pressure (N-Series)

Fittings DR 25
Fabricated in Sizes 4" – 36"

Applications

C.I.O.D. DR 25 Gasketed Non-Pressure fittings are for sewer and drain applications. C.I.O.D. Non-Pressure fittings are not fiberglass reinforced and they are most commonly installed in either areas of high water tables or extremely deep burials. Bends of 45 degrees or less, are manufactured of one-piece construction. This provides a lightweight, compact fitting, which can be easily handled in the field.

Certifications

Our Non-pressure C.I.O.D. Gasketed Sewer fittings conform to portions of AWWA C900.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

Solvent Weld Sewer Fittings SDR 35 (P-Series/S-Series)

Injection Molded in Sizes 3" – 12"
Fabricated in Sizes 10" – 36"

Applications

Westlake Pipe & Fittings has the broadest product offering of Solvent Weld Sewer fittings in the industry. They conform to all municipal, federal, and military requirements. They are tested for joint tightness, internal stress and dimensional stability. The P Series and S Series are engineered for the harsh environment of construction, shipping, handling and installation.

Listed below are some of the uses of Solvent Weld Sewer fittings:

- Onsite Disposal
- Closed loop septic fields
- Open system septic fields
- Engineered systems
- Laterals to Municipal Sewers (sanitary & storm)
- Surface Drainage
- Foundation Drains
- Radon Gas Venting
- Yard Drainage
- Downspouts
- Pool Drainage
- Area Drainage
- Landscape Drainage

Certifications

Westlake Pipe & Fittings Solvent Weld Sewer fittings are third party tested and listed by NSF, UPC, and CSA to meet specifications defined in ASTM D3034 and CSA B182.2.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

I.P.S. Gasketed Drainage (T-Series)

Injection Molded in Sizes 4" – 8"
Fabricated in Sizes 10" – 24"

Westlake Pipe & Fittings is one of the only manufacturers to supply 4" – 8" Gasketed Drainage fittings in molded components. These Gasketed Drainage fittings feature distinctive blue rings and gaskets for easy field identification.

Applications

Gasketed Drainage fittings are intended for non-pressure drainage of sewage and surface water where IPS pipe is specified.

Certifications

Westlake Pipe & Fittings Gasketed Drainage fittings are made to accept ASTM D2241 pipe or ASTM D2665 DWV pipe.

Attention: Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.
