#### **ARTICLE V SERVICE FEE**

- 5.1 **Explanation.** NCTCOG will make this Master Service Agreement available to other governmental entities, Participating Entities, and non-profit agencies in Texas and the rest of the United States through its SHARE cooperative purchasing program. The Contractor is able to market the Services under this Agreement to any Participating Entity with emphasis that competitive solicitation is not required when the Participating Entity purchases off of a cooperative purchasing program such as SHARE. However, each Participating Entity will make the decision that it feels is in compliance with its own purchasing requirements. The Contractor realizes substantial efficiencies through their ability to offer pricing through the SHARE Cooperative and that will increase the sales opportunities as well as reduce the need to repeatedly respond to Participating Entities' Requests for Proposals. From these efficiencies, Contractor will pay an administrative fee to SHARE calculated as a percentage of sales processed through the SHARE Master Services Agreement. This administrative fee is not an added cost to SHARE participants. This administrative fee covers the costs of solicitation of the contract, marketing and facilitation, as well as offsets expenses incurred by SHARE.

5.2 **Administrative Fee.** NCTCOG will utilize an administrative fee, in the form of a percent of cost that will apply to all contracts between awarded contractor and NCTCOG or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to Civic Marketplace on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 2.5% on sales.

5.3 **Setup and Implementation.** NCTCOG will provide instruction and guidance as needed to the Contractor to assist in maximizing mutual benefits from marketing these Services through the SHARE purchasing program.

## **ARTICLE VI RELATIONSHIP BETWEEN THE PARTIES**

6.1 **Contractual Relationship.** It is understood and agreed that the relationship described in this Agreement between the Parties is contractual in nature and is not to be construed to create a partnership or joint venture or agency relationship between the parties. Neither party shall have the right to act on behalf of the other except as expressly set forth in this Agreement. Contractor will be solely responsible for and will pay all taxes related to the receipt of payments hereunder and shall give reasonable proof and supporting documents, if reasonably requested, to verify the payment of such taxes. Contractor shall have the right to retain copies of documentation, and other items for its archives. If for any reason the foregoing Agreement regarding the ownership of documentation is determined to be unenforceable, either in whole or in part, the Contractor hereby assigns and agrees to assign to NCTCOG all rights, title, and interest that the Contractor may have or at any time acquire in said documentation and other materials, provided that the Contractor has been paid the aforesaid.

**APPENDIX A**  
**Statement of Work**

The Contractor agrees to provide AI consultancy services in accordance with the scope of work and requirements outlined in Request for Proposal (RFP) No. 2025-023, and as further detailed in the Contractor's technical proposal response. Both documents are hereby incorporated by reference and made a part of this Statement of Work.

## 5. Technical Proposal

Evolvers recommends **three level approach** for the digital transformation of a department for AI-ML adoption.

1. **Level 1 @ Organization level: Strategy** for AL-ML adoption
2. **Level 2 @ Domain level: Program Plan** – Assessment, discovery and technical roadmap
3. **Level 3 @ Use Case level: Project plan** – execution, implementation

It is critical that goals, policies and strategic plans are defined with sufficient clarity at the organization level. Each of the domains will further elaborate the org level program plans with additional details. Project plans at Use case level will ensure actual implementation, feedback loop and continuous improvement.

### Level 1 @ Organization level: Strategy for AL-ML adoption

The Evolvers' team will work with the department to revisit the current strategic plan of the department for AI-ML adoption, identify any gaps and address the same. The AL-ML adoption strategy has five key areas as described below -

<b>A. Define Objectives and Scope</b>	<ul style="list-style-type: none"> <li>▪ <b>Set clear vision and goals:</b> Measurable goals.</li> <li>▪ <b>Identify key stakeholders:</b> Management, other employees, impacted users, developer groups, vendors.</li> <li>▪ <b>Define scope:</b> Identify prioritized domains for AI adoptions</li> </ul>
<b>B. Data Infrastructure and Data Governance</b>	<ul style="list-style-type: none"> <li>▪ <b>Identify data sources:</b> Datalakes, data warehouses etc.</li> <li>▪ <b>Create data security and data governance policies and plan</b></li> <li>▪ <b>Plan for data quality and data integrity</b></li> </ul>
<b>C. AI Technology Exploration</b>	<ul style="list-style-type: none"> <li>▪ <b>Guidelines for technology assessment:</b> Machine learning, NLP, Deep learning. Custom build vs Off the shelf tools.</li> <li>▪ <b>Select vendors:</b> Evaluate and select qualified vendors.</li> <li>▪ <b>Identify internal teams:</b> AI development teams.</li> </ul>
<b>D. AI Implementation Roadmap</b>	<ul style="list-style-type: none"> <li>▪ <b>Develop change management plan:</b> Provide org level guidance on communication, training on AI tools adoption and development.</li> </ul>
<b>E. Compliance and Ethics - Define policies and guardrails</b>	<ul style="list-style-type: none"> <li>▪ <b>Define Guideline for Ethical usage of AI:</b> Ethical use, data privacy, fairness and transparency.</li> <li>▪ <b>Define checkpoints for Regulatory Compliance:</b> Compliance, privacy and aviation safety regulations.</li> </ul>

## Level 2 @ Domain level: Program Plan

The Domain level program plan will have five key focus areas, same as that of the Org-level strategy. However, the Org-level strategies will be further expanded capturing domain level details in order to create the domain level program plan.

The domain level program plan will expand the data infrastructure, stakeholders and AI technologies to a greater detail. Also, the KPIs, Use-case identification and prioritization will happen at the domain level.

Availability of sufficient data volume and also quality of data are critical success factors for AI-ML projects. The available data needs to be cleaned up, prepared, split into training and testing data sets.

Decision on the best and most appropriate AI technology solution is the next important step. AI-ML can have different solution approaches. Decisions need to be taken on – whether to use traditional Machine Learning or Deep Learning/ Gen-AI, use LLM or SLM models, use custom build or commercial configurable solutions.

The first of the five key areas, 'Assessment and Set Goals' is a critical step to ensure that the compass, or the direction of the program is set up correctly. Evolvers recommends conducting a gap analysis between current state and future business needs for the domain. The intermediate outcome is backlog of AI-ML use cases. Then applying inputs on higher ROI (Return on Investment), ease of implementation and lower risks one needs to come up with the prioritized list of AI-Use cases. The gap analysis work-flow is described in the picture below.

## Level 3 @ Use Case level: Project plan

Evolvers recommends creating project plans at AI-ML use case development level.

In general, every project starts with developing a Project Management Plan (PMP) including the following area –

- Project Overview
- Scope Management
- Estimation
- Schedule Management
- Financial(Cost/Budget) Management
- Staffing Management
- Stakeholder Management
- Communication Management
- Risk Management
- Quality Management
- Development Approach
- Software Process Improvement
- Change Management
- Compliance
- Performance Measurement
- Training
- Project Integration Management

AI-ML development project life cycle demands specific phases and activities related to data preparation and model developments. The **AI-ML use case level project plan** will consist of the following phases and tasks –

Phases and Tasks	Notes
<b>1. Project Initiation and planning</b>	
Capture the problem statement	Identify objectives and scope
Identify stakeholders	Identify stakeholders and publish RACI
Set KPIs and success criteria	
<b>2. Requirement Elicitation</b>	
Expand the requirement	Capture clear requirements and baseline
<b>3: Design</b>	
Identify Data sources	Datawarehouse, tables, files
Prepare data collection plan	Plan for data pipeline, frequency of refresh;
Model selection	Decide the appropriate model and algorithm
<b>4. Development</b>	
Data preparation	Clean, Transform and do feature engineering Split the data into training and validation sets
Develop model	Build and train the model
<b>5. Testing</b>	
Validate model	Review accuracy, precision
Performance testing	Test for efficiency
User Acceptance testing	User testing
<b>6. Ethical usage review</b>	
Architecture review for security	This will run in parallel to model development
Bias detection and Fairness assessment	Test for inherent bias
Transparency check	Ensure that the model's outcomes are understandable
<b>7. Phased Deployment</b>	
Phase 1: Pilot deployment	Rollout in a small scale; monitor the performance
Phase 2: Incremental roll out	Expand the user base gradually; monitor the performance
Phase 3: Full deployment	Release the model to complete user groups
<b>8. Monitoring and Maintenance</b>	
Continuous monitor	Set up regular / periodic review of the model for efficiency and ethical usage
Set up Feedback loop	Set up user feedback collection loop; review and take action
Plan and maintain the Model(s)	Set up regular model retrain schedule

## Project management methodology

Evolvers' project management methodology recommends structured approach -

**Project objectives and project scope:** Evolvers team will connect with the project sponsor to understand the project objectives. Evolvers' team will document the project objectives and scope.

### Estimation and schedule management:

Estimation will be done based on industry standard, available estimation model, historical data points and SME inputs. As per the *Evolution Methodology*<sup>™</sup>, we will create a **Work Breakdown Structure (WBS)** that will become the base for the tracking the project cost and schedule at granular level. We learn from every project and build the model to better estimate the next one.

### Continuous Process Improvement

Evolvers' strength lies in our understanding of how to use inclusion and communication into and throughout the continuous improvement (CI) to keep the ownership, buy-in and smooth adoption.

Evolvers' recommends that the CI process will follow the PDCA cycle (Plan-Do-Check-Act) as in Figure below to continuously improve (move upwards) as described in the figure.

### Risk Management

The other key aspect of *Evolution* methodology is project risk management, including -

**Risk Identification:** Identify and manage risks throughout the project duration.

**Risk Prioritization:** Prioritize risks based on probability, severity and impact.

**Risk Response Strategies:** Strategize response strategies for the top risks based on options like - risk mitigation, avoidance, transfer, and also risk acceptance! Develop contingency plans.

**Risk Tracking:** Finally, diligently track and communicate the top risks to the right stakeholders.

### Evolvers' Change Management Methodology

Organizational Change will use the Prosci ADKAR Methodology.

1. **Awareness:** Understanding the need for change and its implications.
2. **Desire:** Having a positive attitude towards the change and a willingness to participate.
3. **Knowledge:** Possessing the information and understanding of how to implement the change.
4. **Ability:** Having the skills and capabilities to execute the change effectively.
5. **Reinforcement:** Sustaining the change through ongoing support and positive reinforcement.

### Stakeholder Management and RACI matrix:

Our team will identify the key stakeholders and publish a **RACI chart** - **R** (Responsible), **A** (Accountable), **C** (Consulted) and **I** (Informed) in order to setup clear expectations from the stakeholders. This will be a direct input for creating a clear communication plan addressing the needs for different stakeholders.

### Communication plan and status reporting:

Effective communication is critical to the success of any project. The goal is to ensure timely **generation, collection and dissemination** of correct project data and relevant metrics.

**Status Reporting:** As a best practice, Evolvers team will publish weekly and monthly status reports with visual **RAG indicator** (R – RED for issues/high risk, A – Amber for medium risks and G – Green for on-track).
